Objective

Motivated computer engineer looking to start my career in an IT company. Eager to learn new skills, work well with a team, and contribute to the company's success with attention to detail and problem-solving abilities.

Education

- **Charotar University of Science and Technology**   Changa, Anand, Gujarat
  Bachelor of Technology in Computer Engineering; CGPA: 9.04/10   *(Sep 2022 - Apr 2026)*

- **Knowledge High School, Anand**   Anand, Gujarat
  HSC; PCM Percentage : 77.00   *(Jun 2021 - Mar 2022)*

- **Knowledge High School, Anand**   Anand, Gujarat
  SSC; Percentage : 87.00   *(Jun 2019 - Mar 2020)*

Skills Summary

- **Languages**: C++, JavaScript, HTML, CSS, C#, Tailwind CSS

- **Technologies**: React.js, Node.js, Express.js, .NET Core, Socket.io

- **Tools & Platforms**: MongoDB Atlas, Git/GitHub, Postman, VS Code, Visual Studio

- **Database**: MongoDB, SQL Server

- **Soft Skills**: Leadership, Teamwork, Problem Solving, Time Management, Multitasking, Adaptability

Experience

Appifly Infotech   Surat, Gujarat
MERN Stack Developer Intern :   *(May 2025 – June 2025)*
- During my experience, I worked directly with the MERN stack, which helped me improve my skills in React.js, Node.js, Express.js, and MongoDB.
- I also learned how to connect APIs, manage databases, and build the backend and deploying apps using platforms like Vercel and Render.
- At the same time, I got better at fixing issues and making full-stack apps work more smoothly.

Projects

- **Quiz App |** React.js, ASP.NET Core Web API, SQL Server
  - A Quiz app with user registration/login; new users are added to the database, returning users are redirected to the quiz page with a timer starting automatically.
  - The app delivers random questions (including some with images) from the database and prevents unauthorized direct access to the quiz page.
  - After completion, users see their score with options to submit or retry the quiz, which restarts the quiz and timer.

- **Real-Time Chat Application** 🔗 **|** React.js, MongoDB, Express.js, Node.js, Socket.io, Tailwind CSS
  - A real-time messaging app with secure user login and access control.
  - Enabled instant chat with live user updates, image sharing, theme customization, and display picture changes.

- **Cloths-Shopping Platform** 🔗 **|** React.js, MongoDB, Express.js, Node.js, Tailwind CSS
  - A dynamic and scalable e-commerce platform with product filtering, cart management, and secure payment processing using Stripe and Razorpay.
  - Built an admin dashboard for managing products (add/remove with images) and handling orders efficiently.

- **JobConnect – Job Finding Platform |** React.js, MongoDB, Express.js, Node.js, Tailwind CSS, Machine learning
  - A full-stack platform offering job and internship solutions with OTP email authentication, job search, applications, discussion forums, and real time application updates.
  - Created an admin dashboard to manage job listings and evaluate applications by resume quality and role fit.
  - Integrated ML/NLP features such as a smart resume builder, resume analyzer, and job market analytics in collaboration with the ML team.

Achievements

- AWS Academy Cloud Developing Batch certificate
- .NET Full Stack Developer || Coursera certificate
